Handcrafted from the finest woods available,

Andersen architectural entranceways introduce

your home with uncommon elegance.

They showcase artistry, intricacy and exceptional

beauty to complement the character of your

home and those who live inside.
Dramatic shapes and sizes enhance your home’s architecture.

The very finest grades of oak, maple, cherry, pine, mahogany, alder and fir. Other wood species are available through special order.

Divided light grilles in standard and custom patterns.

Stunning sidelights and transoms open a home to light and add a dramatic flair to any entranceway.

Optional handle hardware comes in a variety of styles and finishes.

A wide variety of glass options offer efficiency and beauty. Decorative glass options available.

**Sidelights & Transoms**

Sidelights and transoms can complement an entranceway or completely transform the look of the entire home. These charts demonstrate the range of configurations available for rectangular single and double doors. Sidelights and transoms can be used in nearly any combination, allowing arched openings to be filled with rectangular doors and arched transoms, and creating a world of possibilities for what was once a simple doorway.

**Transoms**

To provide a seamless alignment with the door, sidelights and transoms are available with the glass built directly into the frame (direct-glazed) or with glass aligned to the door stiles and rails (sash-glazed). See illustrations above.
The finest grades of pine, maple, alder, cherry, oak, fir and mahogany are standard. Other wood species may be available through special order. Species can be varied on the interior and exterior. Many entranceways are also available with aluminum-clad exteriors.
Brickmould

Seven widths of exterior brickmould and twelve profiles are available in pine, maple, alder, cherry, oak, fir and mahogany. Curved and lineal options are also available. Aluminum-clad brickmould options are available to match entranceways with clad exteriors.

Interior Casing

Twenty-eight profiles of interior casing are available in accenting pine, maple, alder, cherry, oak, fir, and mahogany. Curved and lineal options are available.
Hardware

Andersen® architectural entranceways give you a multitude of hardware options. They can be pre-drilled for handle sets, knob sets and lever sets to accommodate most architectural styles and most manufacturers’ designs. You can also choose lock and trim sets to match your window and patio door hardware from the Andersen® Metro®, Estate™ and Andiron® collections. With the exception of our Tribeca® style, all are forged from the finest brass and finished in brass, bronze, chrome or nickel. Tribeca hardware is made from steel with a low-maintenance white or stone finish. All Andersen locksets work with both single-point locking systems and multi-point locking systems, which secure the door panel at the top, middle and bottom.

Capri Hardware

The Capri multi-point lock and trim set is compatible with all Andersen architectural entranceways, including 2-1/4” thick panels, as well as Springline®, gothic and extended-height doors that cannot accept hardware from our Metro®, Estate™ and Andiron® collections. It is available in your choice of three finishes: polished brass, dark bronze and satin chrome.

Hinges

Standard ball bearing hinges are available in stainless steel, white, polished brass and dark bronze.

Printing limitations prevent exact color duplication. See your Andersen dealer for actual finish samples.
After-Market Hardware
For hardware purchased separately (below), doors can be ordered predrilled for easy on-site installation. They can also be specified without hardware drilling.

Art Glass

Springline™ (213)
Shown in oak with Diamond Lites art glass.
Designed For Your Door

Art glass adds color and beauty to your entranceway, while allowing you to make a truly individual statement. It is available for all Andersen architectural entranceways, and patterns can be modified to accommodate the size or shape of any glass area. For maximum energy efficiency and stability, art glass panels are permanently sealed between the insulating glass panes. Patterns in addition to those shown below are also available, as are custom designs. Ask your Andersen dealer for details.

Frank Lloyd Wright® Series

Adapted from windows Frank Lloyd Wright designed, this series remains true to the principles that governed his original work: simplicity, unity and nature. Each panel is handcrafted by skilled artisans using centuries-old techniques and, as often as possible, the glass is selected from the same sources specified by Wright himself.

Classic Series™

The four styles included in our Classic Series™ panels represent major architectural design themes from the late 1800’s through the 1930’s. Their symmetric patterns are available in distinctive color schemes as well as colorless glass, and their caming may be finished with a gold tone, silver tone or antique patina.

Colonnade  Eucalyptus  Prairie Rhythm  Wichita

Diamond Lights  Lotus  Regency  Victoria
Straightline (181)
Shown in mahogany with sidelights (183), beveled glass and custom grilles. Direct-glazed transom with custom art glass. Hardware purchased separately.
Divided Light

Andersen can provide just the right grilles to enhance any shape or style of entranceway. You can choose a recognized pattern, such as colonial, prairie or renaissance, recreate a specific design or have our designers work with you to craft a signature look. The illustrations below give you examples of some popular patterns in straightline and arched entryways.

Interior/Exterior Grille Combinations

Full divided light includes grilles on the interior and exterior of the entranceway. It is available with spacer between the glass panes for an authentic divided light appearance. For ease of cleaning, a simple removable interior grille is also offered.

Grille Profiles & Widths

Grilles are available in two standard profiles - Chamfer and Roman ogee. All profiles are available in four standard widths: 3/4", 7/8", 1-1/8" and 2-1/4".
Features & Options

Tempered High-Performance™ Low-E4® glass is standard. Tempered High-Performance Low-E4 Sun glass is also available for added energy efficiency.

Engineered timber stiles and rails in the door panels provide strength and stability.

Wood exteriors are standard.

Aluminum-clad exteriors are available in the 21 Andersen colors of nature for most entranceway styles.

Exterior panel mouldings are standard on most panels. Optional raised mouldings are also available on panel interiors and exteriors for added visual definition and style.

Standard 4-9/16", 5-1/4", 6-9/16" and 7-1/8" jamb depths are available to match the thickness of most walls. Custom jamb depths are also available.

Doors are available in both inswing and outswing configurations.

Weatherstripping
Flexible foam weatherstripping around the door perimeter, combined with a sweep watershed on the bottom of the panel, help resist wind and water. Outswing doors include an additional rain skirt for greater protection against wind-driven rain.

Door Heights and Widths
Two standard heights, 6'8" and 8'0" and two standard widths, 3'0" and 3'6" are available for most doors. Custom heights and widths are also available. Heights and widths shown are nominal. For actual unit and rough opening dimensions, contact your Andersen dealer.

Panel Thickness
Choose from two standard panel thicknesses: 1-3/4" and 2-1/4"
Sill Options

A wide variety of sill options are available for both inswing and outswing doors.

Outswing Doors

Outswing sills come in solid oak with metal tread finishes including anodized bronze and aluminum mill. A low profile sill is also available for outswing doors.

Inswing Doors

Inswing sills come in solid mahogany or solid oak with a variety of metal tread finishes including aluminum mill and anodized bronze. Solid wood inswing sills and treads are also available in oak and mahogany.

Sill Profiles & Colors

Inswing sills shown.

- Solid mahogany
- Solid oak
- Aluminum mill
- Anodized bronze

Straightline (194)

Springline™ (113)

Shown in mahogany with Capri hardware and custom grilles.
We stand by our products, and the people who
use them. Our limited warranty is one of the
most reliable in the industry. It is non-prorated and
fully transferable, so it maintains its value throughout
the coverage period, even if the property changes
ownership. The limited warranty for architectural
entranceways covers glass for 20 years. Decorative
insulated art glass and non-glass parts are warranted
for 10 years, with the exceptions of unclad door panels
and doors used for commercial purposes, which are
covered for 5 years. For details, please request a copy
of the complete limited warranty from your dealer.
